Henley Youth Festival 2nd - 10th March

Parents Evening 19th & 20th March 4-7pm

EYFS Curriculum Newsletter Spring 2 2024

Core Value: Forgiveness

Trinity CE
Primary School
Who is my neighbour?

During Spring 2 we will be continuing our topic of 'Way Back When – Bicycles' and then we will move onto the topic of 'Animal Crackers'. The topic web below outlines how the different subject areas will be covered. Please note: Some activities may change or different activities may be added depending upon which areas the class choose to investigate further.

English The Write Stuff: This term we will be exploring exciting vocabulary, learning about different sentence structures and grammatical features and also taking part in experience lessons to ignite the children's imaginations! The children will be working on the story Jack and the Jelly bean. They will be looking at action and descriptive words to describe the story. We are working on always using capital letters, finger spaces and a full stop in our writing.

P.E

The children will be learning all about coordination on a Monday with the PE coach and how we use coordination to help catch a ball. On a Friday we will be in the hall working on gymnastics and looking at the different ways we can move our bodies, using equipment.

Way Back When- Bicycles

Maths – Maths Mastery (White Rose Maths)

In Maths in EYFS this term, we will be focusing on combining two numbers, adding two numbers together, with answers below and above 10. We will also be working on Children using their skills of perceptual subitising to recognise the groups within numbers greater than 5, allowing them to conceptually subitise. This is the ability to identify a whole quantity by subitising the smaller quantities that make up the whole number. This skill will support children to develop mental images for addition and subtraction, which helps them to move away from counting on and counting back. For example, "I can see 8. There are 4 here and 4 there. There are 8 altogether." Use dot plates with two colours to support children to see the two groups within the whole.

R.E - The children will be learning about Spring.

We will be looking at how different animals are born in spring and how flowers grow and new life starts. We will be getting some caterpillars in the classroom to show how they grow into Butterflies, which will be a cross-curricular activity with RE and Science.

Learning Means the World – Dimensions Curriculum

Our "Way Back When- Bicycles" is a mini history project.

History - The children will learn about how bicycles have changed over time. We will Comment on images of familiar situations in the past.

PSHE - We will be talking about self-regulation. Role playing how to respond in certain situations.

Science – The children will learn about growing. What plants need to grow. What the different parts of plants are called.

ART – The children will be learning about colours and colour mixing.

Music – The children will learn about how to listen attentively, move and talk about music, expressing their feelings and responses
